

The Preppers Apocalypse Survival Guide to Camp Fires and Fire Pits (Volume 2)

Fire is the most important tool you will have at your disposal in a survival situation. It is vital that you have a strong understanding of how to make and use fire to increase your chance of surviving. This book will tell you how to make fire in any situation. Even if you have no fire lighting tools and you're stuck out in adverse weather conditions. After reading this book you will have the knowledge and the skill set you need to make fire no matter where you are, and most importantly, survive. Jam packed full of concise information and fantastic tips that may well be new information to even experienced survivalists, what you get is a small book that really packs a punch. This book is part of Steve's books series that really has been a revelation in the survival and prepping genre. So you know you will be getting a fantastic product that any survivalist needs to read. This book is, in a word, fantastic. It tells you not only how to make the most important types of survival fires but also how to use them to increase your chances of survival. I would like to think I know a lot about survival, but even I learned from some of the great little tips in this book! A brilliant job by Steve, big pat on the back from me. Can't wait for more!
