

BUNDLE: Creswell: 30 Essential Skills for the Qualitative Researcher + Janesick: Stretching Exercises for Qualitative Researchers 4e

We offer these texts bundled together at a discount for your students. Creswell: 30 Essential Skills for the Qualitative Researcher fills a gap in introductory literature on qualitative inquiry by providing practical how-to information for beginning researchers in the social, behavioral, and health sciences. Author John W. Creswell draws on years of teaching, writing, and conducting his own projects to offer effective techniques and procedures with many applied examples from research design, qualitative inquiry, and mixed methods. Creswell defines what a skill is, and acknowledges that while there may be more than 30 that an individual will use and perfect, the skills presented in this book are crucial for a new qualitative researcher starting a qualitative project.

Janesick: Stretching Exercises for Qualitative Researchers, 4e In the new Fourth Edition of her inventive, one-of-a-kind book, author Valerie J. Janesick uses dance, yoga, and meditation metaphors to help researchers tap into the intuitive and creative side of their research. In every chapter, stretching exercises help readers develop, practice, and hone fieldwork skills and vital habits of mind such as observation, interviewing, writing, and analysis. While reading the book and working through the exercises, readers can complete a researcher's reflective journal, an invaluable tool that will remain useful throughout their careers.
