

Annals of the Bodleian Library

This fascinating book describes the history of Oxford University's great academic library, from the foundation of Cobhams Library in 1367, Richard de Burys library at Durham College, Duke Humphreys Library, Sir Thomas Bodleys bequest and on to the late nineteenth century. Macrays scholarly work abounds with fascinating detail and draws not only on the Bodleians official archives but also many diaries and gossipy anecdotes. It comes as something of a shock to discover that one of Bodleys friends accused him of being so drunk with applause and vanitie of his librarie that he disregarded the needs of his own family and servants. As late as 1712, Bodleys relations were appealing to the Vice Chancellor for relief from the direst poverty. Among the strange gifts received by the Bodleian was a half-burned Russian translation of the Pickwick Papers found at Sebastopol when the battery was stormed in 1855.
