

AQA Physics A A2

The blend of Student Books and supporting online resources allow you to personalise the delivery of the course to meet students needs, with plenty of practical activities to develop the skills required to tackle How Science Works. Full coverage of the Optional Topics (Unit 5 Section B) is provided online via Kerboodle, with over 200 additional pages of course notes including: summary questions, examiners tips, exam-style questions and teacher notes. Learning Objectives, clearly referenced to the related statements in the AQA specification, let students know exactly what they'll need to learn and understand in that topic. Extension materials provide extra challenges for students, helping them to develop key skills.
