

Artemis 2015

Artemis, namesake of this journal and goddess of light, had the divine duty of illuminating the darkness. Often she is depicted carrying a candle or torch, lighting the way for others and leading them through territories yet uncharted. Known as the chaste Greek goddess associated with the moon and hunt, her connection with the natural world symbolized her own untamed spirit, and she became the patron saint of childbirth, protector of wild animals, virgins and the powerless. Her illumination lends inspiration to the theme of this edition, courage of our convictions, shedding light into the unknown and supporting us with her courage and strength.
