

# Audel HVAC Fundamentals, Volume 3: Air Conditioning, Heat Pumps and Distribution Systems

Keep it cool or heat things up This third volume of Audels HVAC Library gives you a comprehensive, hands-on guide to installing, servicing, and repairing all basic air-conditioning systems in both new and older construction. You'll also find complete coverage of specialized heating units-radiators, radiant heating systems, stoves, fireplaces, heat pumps, and indoor/outdoor pool heaters, plus fans, exhaust systems, air filters, and more. Its what you need to complete your HVAC reference library. \* Make accurate calculations for AC system output \* Tailor AC systems for older construction \* Learn to install and service today's popular electronic air cleaners and filters \* Service less common heating systems such as coal-fired furnaces \* Install, maintain, and repair humidifiers and dehumidifiers \* Handle radiators, convectors, and baseboard heating units
