

Beast of War (Light Beasts Saga) (Volume 1)

A self-absorbed college student has everything she knows turned sideways. After ignoring multiple warnings, she walks down a one-way path. Now she is alone in a land and body that are unknown to her. See the world through her eyes as she struggles with the implications of the biggest mistake of her life. Can she adapt fast enough to keep alive? Can she keep ahold of who she is, or even what it means to be human? Can she make it home before she becomes more than just a beast of war?

Welcome to the world of Haragerk. See it through the eyes of a nineteen year old college student as she is dropped without warning in an alien land, in a body that's not quite her own, and without so much as the shirt on her back. Unable to communicate with the inhabitants, Mel is forced to rely on her wits and claws to survive. Each chapter is highlighted with illustrations capturing elements from the story and bringing them to life.
