

Macroeconomics

Now firmly established as one of the leading economics principles texts in the UK and Europe, this exciting new third edition of Macroeconomics by N. Gregory Mankiw (Harvard University) and Mark P. Taylor (Warwick University), has undergone some significant restructuring and reorganization to more directly match economics students course structures and learning and assessment needs. There are new sections covering macroeconomic topics and concepts in more depth, whilst at the same time retaining the books reputation for clarity, authority and real world relevance.
