Improve your healing skills set ?Includes free bonus material of Chiropractic chart of misalignments and potential organic disturbance Charts of the meridians and suggested acupressure points to detox the organs more quickly Detailed information about how to improve the patients condition with vitamin and minerals therapy In depth dietary advice Free hypnotherapy relaxation download Essential Oils are The Off Switch for stress. The Professional Stress Solution is the ON SWITCH for your aromatherapy business.

Book 2 - THE ESSENTIAL OIL LIVER CLEANSE The Essential Oil Liver Cleanse focuses on a detox/cleanse using aromatherapy and essential oils. We are warned of the threats of heart attacks, strokes and cancer, especially if we are overweight. What is kept quieter is doctors have established a link between toxicity in the liver and metabolic syndrome, the condition that leads to many of these conditions. Whats more non fatty liver disease is known to underlie many other conditions such as eczema, allergies and headaches. The scandal is just how many of our livers are struggling under the strain of over processed foods, pharmaceutical debris and actually even our own bad tempers! This book explains:

The importance of the liver and its functions How it becomes dysfunctional and how to interpret warning signposts How to cleanse and nourish using not just essential oils, but also vitamins and minerals and diet. The strange correlation between how our emotions and how this can translate into disease. How to implement other therapies such as chiropractic, acupressure and counselling and how to secure fantastic referrals. This book is best used in tandem with The Professional Stress Solution to benefit from the complementary healing. Then use Sales Strategies for Gentle Souls to create a marketing plan to use your new found knowledge to smash your competition out of the water!!! Book 3 - SALES STRATEGIES FOR GENTLE SOULS

This is targeted sales training for aromatherapists, but the sales strategies hold true for any healer, or indeed person who finds the idea of aggressive sales intimidating. The truth is, sell is a four letter word, but in business there really is no getting away from it. Sales is the only thing that contributes to profit, every single other thing in your business is a cost.

Wonderful things are happening in complementary therapy. Aromatherapy is edging its way slowly to the front of holistic medicine. Very gifted people are churning out fantastic research and results and the internet is full of what essential oils can do. But when a gentle soul emerges from their relaxing haze of their aromatherapy class room, how do they harness the buzz of energy around them for their craft? Sales strategies for gentle souls can turn even the most timid creature into an effective sales person. 3 books @ \$2.99= \$8.98 \$4.50
