

## Champion: Legend, Book 3

June and Day have sacrificed so much for the people of the Republic - and each other - and now their country is on the brink of a new existence. June is back in the good graces of the Republic, working within the governments elite circles as Princeps Elect while Day has been assigned a high-level military position. But neither could have predicted the circumstances that will reunite them once again. Just when a peace treaty is imminent, a plague outbreak causes panic in the Colonies, and war threatens the Republics border cities. This new strain of plague is deadlier than ever, and June is the only one who knows the key to her countrys defense. But saving the lives of thousands will mean asking the one she loves to give up everything he has. With heart-pounding action and suspense, Marie Lus best-selling trilogy draws to a stunning conclusion.
