

The St. Martins Guide to Writing

Whether you have years of experience as a teacher or are new to the classroom, you and your students can count on The St. Martins Guide to Writing to provide the support you need in first-year composition, with a rhetoric, an array of engaging readings, a research manual, and a handbook, all in a single book and available online. Thousands of instructors and their students rely on the Guides proven approach because it works: the Guides acclaimed step-by-step writing guides to 9 different genres offer sure-fire invention strategies to get students started, sentence strategies to get students writing, and thoughtful revision strategies to help students make their writing their own, no matter what their major. With its hands-on activities for reading like a writer and working with sources, there is no better text to help students bridge reading analytically to successful writing in first-year composition and beyond. In keeping with the Guides tradition of innovation and based on instructor feedback about what assignments they give their students, the new edition integrates new types of writing that reflect the range of genres being assigned in first-year composition, including a reimagined Chapter 5 that provides a bridge from personal and expository to argumentative writing by following a scaffolded approach. The eleventh edition is available with LaunchPad for The St. Martins Guide to Writing, an online course space of pre-built units featuring the full e-book, tutorials, and adaptive LearningCurve activities to help students hone their understanding of reading and writing.
