

The Horse in my Heart

Now, leaning on the fence, letting the soft breeze stroke my face while I watch my sweet bay horse grazing beneath the apple tree, its as if everything is normal and nothing has changed. But everything has changed. Forever. Reading Elizabeths diary, a year after it all happened, I experienced a strange feeling of unreality. Perhaps it was a dream. Perhaps it should have been. Sometimes, I wonder what her horse thinks of it all (he is still her horse, and always will be). Because horses remember everything. In fact, they have amazing memories, better than humans. Most of all they have souls. Deep, fathomless souls. And a great capacity for love. When nervous rider Annie innocently responds to an advert for a horse for sale, she wants a steady safe ride, but instead finds herself drawn to the lively Rocket - and his owner, the enigmatic teenager, Elizabeth. Annie knows she could never manage a horse like Rocket but Elizabeth wont listen. Its a stormy start to a friendship that will change both of their lives dramatically. Because Elizabeth is on a mission to find a home the right home for her beloved bay rescue horse, and, despite everything, shes convinced Annie is the one. But why is Elizabeth in such a hurry to find a home for the horse she clearly loves so much? When she discovers the reason, Annie is devastated. And time is running out..
