

# Designs for Life: Common Sense vs. Uncommon Sense. 12 Insights to Happiness, Success, Leadership & Oneness

An accidental artist and philosopher, Jane A Gordon transforms her unusual journey and vision into sculptural jewelry filled with symbolism. Jane then weaves a life of learning, inspiration and art into a life philosophy, building one concept upon the previous for an incredible foundation of joy, success, leadership and oneness. Each insight is illustrated by the jewelry it inspired, and by related quotes from ancient to modern. Each page of this unusual book is designed, like the jewelry, to offer support to the reader in self and leadership.
