

## PROJECTS WITH dsPIC30F2010 AND dsPIC30F4013

This is a compendium of 14 chapters on projects that I have experienced with the dsPIC30F2010 and dsPIC30F4013 microcontrollers. Here you will find interesting prototypes as FIR Digital Filter and PWN PID Control and FFT Example and Generating 4 PWM Signals and Measuring Phase and much more. You can get more information about the contents of this book on the next links:
