

economics today: the micro view with MyEconLab

Roger Miller believes that students learn best when they are motivated, and that motivation comes when they connect an idea to their day-to-day lives. That is why every chapter of Economics Today is packed with thought-provoking applications that give immediate, common-sense reinforcement to economic concepts. From international to local, corporate to consumer, policy to personal, these examples spark lively discussion both in and out of the classroom. The result is that students gain a natural understanding of economic theory and analysis, and they learn to use economic reasoning in their everyday decisions. About the Author Roger LeRoy Miller received his Ph.D. from the University of Chicago. He is currently Director of the Institute for University Studies in Arlington, Texas. Dr. Miller is a legal specialist and author of numerous books on law and the legal environment, including criminal procedure. In addition, Dr. Miller has authored books on the war on drugs, the economics of crime and criminal behavior, and on related topics. --This text refers to an out of print or unavailable edition of this title.
