

Far from Xanadu

Every day in Coalton is pretty much the same. Mike pumps iron in the morning, drives her truck to school, plays softball in the afternoon, and fixes the neighbors plumbing at night. But when an exotic new girl, Xanadu, arrives in the small Kansas town, Mike's world is turned upside down. Xanadu is everything Mike is not--cool, complicated, sexy, and...straight. This heartbreaking yet ultimately hopeful novel will speak to anyone who has ever fallen in love with someone just out of reach.
