

Maze Madness: Mind-Melting Mazes

What makes these mazes so hot? First, they're all in color, so they look fantastic. Second, they give youngsters a real brain workout and build logic and perceptual skills. Third (and this is what really matters to kids), they're lots and lots of fun. Drive the car on the one route that visits every spot on the maze exactly once. Do a little house hunting with the termites; they're searching for a home to eat and need to find the way. Look the trail of tangy tomato topping is tracing its way to the plate of tasty taters. See if you can hurry and ketchup. Every one is an irresistible challenge.
