

Flux

The last thing sixteen-year-old Alaina Oftedahl-Miller expected was to watch her mom brutally destroy their life. But, in the wake of tragedy, strength forms. Shipped off to live with her birth father, Alaina finds herself dealing with more than just being the new Canadian girl in a Norwegian school. Juggling the formation of a relationship with the man who abandoned her as a child, and a budding attraction to Kaius Vargoy--the mysterious, beautiful classmate who's been assigned as her personal translator--Alaina can't shake the feeling that every move she makes is being watched. Judged. She soon learns there's far more to this sleepy Norwegian town than she ever imagined. Kaius and his friends aren't exactly what they seem, and the repercussions of that could send her traveling through the most unexpected experience of her life. Murder and relocation is one thing, but add in supernatural occurrences and Vikings, and even she may not have the strength to survive.
