

## Forensic Science: From the Crime Scene to the Crime Lab

A new first edition by the # 1 author in Forensic Science (Richard Saferstein) Forensic Science: From the Crime Scene to the Crime Lab is designed to present forensic science in a very straightforward and easy to understand format. A book in forensic science can quickly overwhelm readers who have little or no course work in basic science. While a book in Forensic Science cannot avoid a discussion of some basic science principles, it can be done in a fashion that does not confuse the student. This book does just that!
