

The Ghosts of K2: The Epic Saga of the First Ascent

Downright thrilling; [Conefrey] really gives us a sense of what it must have been like, battling exhaustion and frigid temperatures to get to the top of the world. A must-read. Booklist At 28,251 ft, K2 might be almost 800 ft shorter than Everest, but its a far harder climb. In this definitive account, Mick Conefrey grippingly describes the early attempts to reach the summit and provides a fascinating exploration of the first ascents complex legacy. From the drug-addicted occultist Aleister Crowley to Achille Compagnoni and Lindo Lacedelli, the Italian duo who finally made it to the summit, *The Ghosts of K2* charts how a slew of great men became fixated on this legendary mountain. Through exclusive interviews with surviving team members and their families, and unrivalled access to diaries and letters that have been archived around the world, Conefrey evokes the true atmosphere of the Savage Mountain and explores why it remains the mountaineers mountain, despite a history steeped in controversy and death. Wrought with tension, and populated by tragic heroes and eccentric dreamers, *The Ghosts of K2* is a masterpiece of mountaineering literature.

: The Ghosts of K2: The Epic Saga of the First Ascent Nov 10, 2015 However, among mountaineers, the mountain will always be K2.
