

The Genesis Sequence Books 1-5

Rav Tillman must escape the underground city of Odysia after his only son is abducted by the corrupt military for experimentation. Taken away across the remaining five galaxies under human control, the boy could be nearly anywhere in the universe. With the alien empire of Azimandia at war with humanity and more alien races making contact, the boy is swept up in a political maze of slavery, technology, and war. With an Australian half alien engineer, the daughter of the president of Odysia, a talented scientist, two Azimandian mercenaries, a teenage priest in an exosuit, and an ancient Biromian alien at his side, Rav Tillman sets out to scour the universe for his son. Nemo is out there somewhere. He knows it. And he will stop at nothing to have his young son back in his arms once more.
