

Greyhound Handicapping Series Book 3: Twenty Articles, Three Mini-Systems and Links to Handicapping Resources

Everyone wants to win more and lose less at the greyhound track and Eb is no exception. That's why he's spent a good part of his life at US tracks learning how to be a better handicapper. This book can help you improve your greyhound handicapping skills too. In this third book in the Greyhound Handicapping Series, Eb shares what he's learned about winners that lose, spot plays and how to spot them, smarter superfecta betting and trifecta angles. There's even an article that tells you how to use a single penny to improve your handicapping skills. Some of Eb's articles and opinions are controversial. For instance, read Eb's opinion on The Only Bet That Really Counts at the Greyhound Track and see if you agree with him. Read another article to find out if you're one of the few people - besides Eb - who spots what it is that changes everything at the track, but almost no one even notices. If you're not, I guarantee you won't miss it the next time you go to the track, because you'll be looking for it. Find out how to use two of the links in the Resources at the end of Eb's book to handicap Maiden and J races for winners that other people think are losers. Let the crowd bet on a dog that runs out of the money, while you pick the dog that wins - the one they were sure couldn't win. Pick a track to play where you'll win more, because of a handicapping factor that no one even thinks about - the other bettors. The 3 mini-systems included in this book can be used when you can't or don't want to handicap, but want to play the races and have fun. As always, Eb has included a list of greyhound handicapping resources including links to the most important handicapping helpers on the Net. From databases of dogs to dog racing news to tipsheets for almost every track, these links can help you find winners. Take advantage of Eb's four decades of greyhound handicapping knowledge for a very reasonable price. The series continues

with Book 4 coming soon. All of Ebs books are for US tracks and are available in Kindle. You can read them for free with a Kindle Unlimited monthly subscription. Ebs first book, Win With Eb At the Track is also available in paperback.
