

## Head Above Water

Sometimes all you need is someone to hold you up. Harper Elliott knows what it feels like to drown. To be unable to breath, to feel the crushing weight of your lungs collapsing while waves crash over your head and the surface is just out of reach. The ocean has stolen way too much from her and her family. Even though she lives just miles from the beach she rarely ever steps foot on it, and never goes in the water. Until she meets Tag Williams, the sexy lifeguard with the funny name, kind smile, genuine eyes and smoking hot body. He makes Harper want to do more than just stick her toes in to test the waters. He makes her want to jump in with both feet. But if she does, can she trust Tag to keep her head above water?
