

GO! with Microsoft Vista, Getting Started

The primary goal of the GO! Series, aside from teaching computer applications, is ease of implementation, with an approach that is based on clearly-defined projects for students and a one of a kind supplements package. GO! with Microsoft Vista, Getting Started, 1/e, contains objectives for each step in learning Vista, from using the start menu to creating, moving and renaming files and folders. Ideal for students and individuals seeking an introduction to Vista.
