

# Hydraulic Tables for the Calculation of the Discharge Through Sewers Pipes and Conduits: Based on Kutters Formula.

Excerpt from Hydraulic Tables for the Calculation of the Discharge Through Sewers, Pipes and Conduits: Based on Kutters Formula Mr. J. O. Irautwine, in his Engineers Pocket Booh, states that, In considera tion of the rough character of sewer brickwork generally, he has taken 015 in Kutters formula when he calcu lated the velocities in sewers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
