

War of the Compass Rose

Its 110 years in the future, and the United States of America has been completely destroyed by aliens the humans call Agents. The Agents are out to get one girl: 16-year old Xiaye Vernet. They want something she unknowingly has: the deadliest weapon in all creation. In another universe, a humanoid civilization called the Delfungaye send out 18-year old Avenlae on a mission. He is to retrieve two things: the Compass Rose and their rightful queen. Little does Xiaye know that she is the one Avenlae is looking for. As Xiaye learns how to rule over her people, she also learns that she has been plopped in the middle of an on-going war. However, they arent fighting the Agents. Theyre fighting the Fifth Creator of the universes.
