

Myths Every Child Should Know: A Selection of the Classic Myths of All Times for Young People (Classic Reprint)

Now, it is a great many years since arrow heads have been used, and they were never used by the people who own the land in which they appear or by their ancestors. To explain the presence of these roughly cut pieces of stone we must recall the weapons with which the Indians fought when Englishmen, Frenchmen, Dutchmen, and Spaniards first came to this part of the world. There may be no authentic history of Indians in the particular locality in which these old-fashioned weapons come to light, but their presence in the ground is the best kind of evidence that Indians once lived on these fields or were in the habit of hunting over them. In many parts of the country these arrow heads are turned up in great numbers; museums large and small are plentifully supplied with them; and they form part of the record of the men who once lived here, and of their ways of killing game and destroying their enemies. Wherever there are arrow heads there have been Indians. Among every people and in every language there are found stories, superstitions, traditions, phrases, which are not to be explained by the thoughts or ideas or beliefs of people now living; and the same stories, superstitions, phrases, are found among people as far apart as those of Norway and Australia. (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.
