

The Final Voyage of the Sea Explorer

When Josh Alexander and his friend Jimmy embarked on a scuba diving vacation in the Bahamas, they knew they were in for the adventure of a lifetime. Sailing aboard the Sea Explorer, many amazing sights and exciting times were in store for them. What they couldn't know was that the ocean held not only a beautiful alien world of wonder but the ominous reality of natural forces at work, moving the dive boat towards its dangerous destiny. Seven days of realism at the mercy of the sea. Seven days of virgin sands and ocean life beneath the waves. Seven days before fortunes became important. For those dreaming of life on the sea or wondering about the spectacular creatures beneath it, *The Final Voyage* catapults the casual reading traveler into watery depths only true divers could perceive. You won't be able to come up for air.
