

## Japanese/Korean Linguistics, Volume 6 (Center for the Study of Language and Information - Lecture Notes)

Japanese and Korean are typologically quite similar, so a linguistic phenomenon in one language often has a counterpart in the other. The papers in this volume are intended to further compare and/or contrast research in both languages. This selection of papers reflects the Sixth Japanese/Korean Linguistics Conferences division into five sub-areas: Historical Linguistics, Phonology, Syntax, Semantics, and Discourse. The Sixth Japanese/Korean Linguistics Conference was held at the University of Hawaii at Manoa.
