They came in peace but arrived in pieces They came to answer the big question but found it hadn't been asked They came to make history but only muddled it up After crashing in a wet forest, 10 million Luma-fractels from home, the clueless crew of a damaged Tellusolian Wave Rider suspect the mechanics call-out fee might be a little steep. Stranded on the rain-soaked planet, Commander Robulus leads his crew into the forest to search for help. But a terrifying human encounter suggests the chances of getting along with the neighbours are slim. Robulus's troubles deepen, however, when he stumbles across the bodies of three humans, poisoned by an ancient Tellusolian weapon of mass destruction. Robulus must uncover the truth about his mission before humankind is destroyed.
