Business computing needs have changed a great deal in recent years. Today's professional needs a wide array of powerful programs to fulfill such everyday tasks as managing information, creating presentations, and building Web sites. That's why Lotus developed SmartSuite, a collection of integrated applications and tools that help you complete your business tasks with greater ease and efficiency. The difference between creating good presentations and stellar presentations with SmartSuite is in how well you understand and use its many sophisticated features. In order to best learn the ins and outs of SmartSuite, we recommend you pick up a copy of SmartSuite(r) Millennium Edition Bible. Loaded with vital tips, tricks, and techniques designed to help you get the most out of SmartSuite, the SmartSuite Millennium Edition Bible covers all the powerful programs, including Freelance Graphics, ViaVoice (the remarkable voice-recognition technology in Word Pro), FastSite, and more.
