

Banjo & Kazooie Totally Unauthorized Strategy Guide (Official Strategy Guides)

Step-by-step walkthrough leads you through all nine levels of the game. Winning strategy for both Gruntilda battles. Plus, complete character, move, and power-up profiles. A swarm of evil is heading this way, and there may be nothing that can stop it - or should we say, stop her. Yes, a beautiful land filled with fluffy bunnies and talking bears may soon be tormented by the evil grasp of the witch known as Gruntilda. Wherever she strikes, all that is pure and beautiful is sickened and blackened. For years, Gruntilda has slaved on a machine that would transform her hideous face into something gorgeous. But for it to work properly, she must find someone with great beauty, like Banjo's little sister Tooty. So begins the plot...and so begins the game.
