

## Gaming Technology (New Technology)

Gaming Technology explores the very latest developments in gaming technology and looks forward to possible advances that will enhance our gaming experience. It looks at the electronics behind games and their platforms, developments in graphics and sound, and ways in which we may play games in the future, for example virtual reality. New Technology is an exciting, up-to-date look at new technology and the effect it is having on the world. Each title looks forward to likely future technological advances that will affect our everyday lives.
