

Clinical Chemistry (College Level Examination Series)

The College-Level Examination Program (CLEP) is a national program of credit-by-examination that offers you the opportunity to validate and receive credit for college-level knowledge you already possess. No matter when, where, or how you have learned -- by means of formal or informal study -- you can take CLEP tests, and, if the results are acceptable to your college, you can receive credit. The Subject Examinations measure achievement in specific college courses.
