

## Polo ... Game Changer

Polo ... Game Changer is a reality fiction novel in which the main character, Rolf Lambert, models the plutocrats in politics like Donald Trump. The novel is the third book in a trilogy. In the second book, False Faith and Equestrian Games, Lambert enters politics and plays to the evangelicals to get elected. In the first book, All the Queens Horses and All the Queens Men, Lambert uses an egalitarian strategy to hide his plutocratic intention to gain wealth and power. In Polo ... Game Changer, Lambert uses polo to promote his wealth and political influence, and to position himself to privatize a large part of the federal government that controls immigration and drug trade across the Mexican border. The novel gives the reader an inside look into the sport of polo as played by the rich and famous. A conflict emerges between Old and New Money, ultimately revealing who are the true Patriots interested in protecting American Democracy rather than promoting their self interest and wealth.
