

## At What Cost

During her junior year, 16-year-old Maggie Reynolds expected to shop for prom dresses, not maternity clothes. Now, instead of studying for the SATs, she's reading, *What to Expect When You're Expecting*. Maggie's mother dearest lives in fear that Maggie will somehow taint the family name, so Maggie can't turn to her for help. Meanwhile, her father is oblivious to anything but his 9-9 job. And her boyfriend, Justin? She's pretty sure he'll stay by her side. While Maggie wrestles with her options, Justin offers a solution: abortion. It would solve all her problems quickly, easily, and effectively. And her parents would never know, which means they won't throw her out and cut her off like they always threatened if she got herself knocked up. But an easy decision becomes difficult when Maggie's aunt discovers her secret and sets out on a mission to stop the abortion, putting a kink in Maggie's plan. Now Maggie must decide which choice she can live with: abortion or teenage motherhood. Either way, it'll be a tough road to travel.
