

Twin Souls: Book One in the Twin Souls Saga

He avoids her because of the strange physical pain he feels when they touch. She avoids him because the way everyone seems to do what he says scares her. But when Claire needs to escape a bad situation Uriah is the first person she thinks of, and he is eager to rescue her. Faced with each other for the first time, both Uriah and Claire find it impossible to listen to their fears and stay away from one another. They soon find out, though, that there is more than they ever thought possible trying to keep them apart. Following tradition the pair approaches the Elders of their Tewa tribe to ask permission to marry. Everyone is shocked when the shaman refuses them, claiming they are not Twin Souls. Confused and angry Uriah refuses to listen, and promises them that he will never abandon Claire. When Claire is poisoned by her vindictive father his resolve is tested. Ancient Native American myths and legends spring into reality, doing everything they can to keep Uriah from saving Claire's life, while beginning to reveal the truth behind the lies he has been told all his life.
