

Pack It Up (Mathematics Readers)

Practice measuring surface area and volume while following the story of a family as they pack and move into a new house! Understanding how to measure two-dimensional and three-dimensional shapes by radius, diameter, surface area, and volume can make packing a much easier, more efficient process! This title encourages readers to practice their measurement skills and shows them how they can put these skills to use outside of the classroom. With the help of familiar images, easy to read text, simple practice problems, and mathematical diagrams, readers will be able to improve their developing mathematical and STEM skills in a practical, useful way!
