

## Utah in the year 2000: Choice or chance : redefining the possible

This is a book of goals and targets. And it is a book full of insights from the people of Utah. Hundreds of Utahns, from across the state, have given input by sharing their hopes, their fears, their views on where Utah should be going. My role has been to ask, to listen, to collect, to conceptualize, and pull together our vision - the vision of the people of Utah on what we want our state to be in the year 2000. We present this vision now, and challenge the experts to find ways to fulfill it!
