

The Bones Book & Skeleton (Hand in Hand with Nature)

Make no bones about it. Kids love Halloween, the biology lab, skeletons to put together, weird facts from science—all of which come together in the bones book & skeleton. The 12-inch, 25-piece skeleton is designed according to standards set by Grays Anatomy and has actual moving joints. Packaged unassembled, the finished model can be displayed proudly in its clear plastic bell jar. Filled with projects, experiments, and incredible facts, The Bones Book & Skeleton is the curious young anatomists guide to the body. Selection of the Book-of-the-Month Club. Winner of the Parents Choice Foundations 1992 Parents Choice Award. Suitable for ages 6-12. 1,655,000 copies in print.
