

The Other Side of Truth: A Romantic Paranormal Mystery Series (The Marked Ones Trilogy Book 4)

Sometimes the truth is more dangerous than a lie. Book 4 of 4 in The Marked Ones Trilogy series. Nearly everything about Patrick's life has been a lie orchestrated by the Kakodemoss. The same group that murdered his parents, turned him into a cybernetic assassin, and performed untold experiments on him for fifteen years. Experiments that have left him unsure where the fabricated Patrick ends and where the true one begins. Or if there even is one. But if he is ever to make amends for the unthinkable act he committed against Nualla, Patrick will have to accept that he has a deadly weapon that can kill and probably already has. That as much as he is a victim, he is also a monster hiding behind an unassuming smile. But is there truly any way to ask forgiveness for trying to end someone's life? And if there is, is it already too late? Travis Centrina didn't ask for Parker to walk into his life. But she did, and he's scared to death that screwing things up with her might lose him his one last chance at happiness. However, as much as he believes she might be his One, there is also no denying that fact that she, along with Patrick and Nualla, are keeping secrets from him. And if the events of the past have taught Travis anything, it's that secrets get people killed. But as he investigates the dark mysteries of the past, Travis begins to realize that the people closest to him are far more deadly than he could have imagined. And that to ensure the safety of Karalia he may be forced to betray the ones he loves. Can the Centrina boys unravel the dark secrets of the past in time? Or will everyone they care about meet the same fate as those they have already lost? The Other Side of Truth is approx. 124,000 words long, and the final full length novel in this imaginative, genre smashing, urban sci-fi romance. Storm behind Your Eyes (Book Three)The Other Side of Truth (Book Four) Interview with the AuthorQ - So, what makes The Marked Ones Trilogy special? A - Well for one, the series is a young adult interracial romance featuring a strong female protagonist, and a hapa (half Japanese, half Irish) geeky male protagonist. Its a fish-out-of-water story told from the reverse perspective of what were used to seeing in most paranormal romance series. In that it has a high school boy as the seemingly normal character, and a female protagonist as the paranormal love interest (in this case a daemon!). But mostly, The Marked Ones is different because it takes the genres of paranormal romance, urban fantasy, science fiction, and high school romance and puts them all into a mixing bowl before baking them into a romantic mystery set in San Francisco. Q - So, why should readers give these books a try? A - If youre looking for something a bit different with diverse protagonists, unusual teen love triangles thats full of twists and turns that keep you guessing? Than this romantic paranormal mystery series is right up your alley. And thanks for reading!
