

The Possibility of Somewhere

Together is somewhere they long to be. Ash Gupta has a life full of possibility. His senior year is going exactly as he's always wanted-- he's admired by his peers, enjoying his classes and getting the kind of grades that his wealthy, immigrant parents expect. There's only one obstacle in Ash's path: Eden Moore-- the senior most likely to become class valedictorian. How could this unpopular, sharp-tongued girl from the wrong side of the tracks stand in his way? All Eden's ever wanted was a way out. Her perfect GPA should be enough to guarantee her a free ride to college -- and an exit from her trailer-park existence for good. The last thing she needs is a bitter rivalry with Ash, who wants a prized scholarship for his own selfish reasons. Or so she thinks. . . When Eden ends up working with Ash on a class project, she discovers that the two have more in common than either of them could have imagined. They're both in pursuit of a dream -- one that feels within reach thanks to their new connection. But what does the future hold for two passionate souls from totally different worlds?
