Stories tell of the Red Fever, a deadly plague that transformed a world of light and life into a wasteland littered with strange relics and forbidden cities haunted by the ghosts of yesterday. Stories speak of the time of the Great Sorrow, when the ragged bands of the Ancestors remaining children gathered into warring tribes. For Kestrel Stoneheart, the ghosts of yesterday have little bearing on her desire to join the elite warriors of her tribe and to protect her people against all enemies. But before she can stand beneath the Bone Tree and become a Red Hand, she must first survive the Killa deadly rite of passage that pits her against the most lethal enemy she knows. Unknown to Kestrel, someone is quietly uncovering secrets of the past that will threaten not only her life, but also the lives of the few survivors of humanity. Tribe: The Red Hand is a 35,000 word young adult dystopian serialized story that begins a sweeping saga loaded with survival and adventure, science fiction and suspense. Join Kestrel Stoneheart as she is thrust onto a harrowing path of fast-paced action and thrilling twists. Stand with her as she faces off against indomitable enemies. Share her amazement and dismay as she begins uncovering mysteries that will not only shatter her beliefs, but also change her world forever. Q & A with Kaelyn Ross
Question: How did you come up with the idea for the Tribe series?
Kaelyn: I've always loved dystopian and sci-fi stories

that are full of twists and turns, surprises, suspense, and mystery, so it seemed like a no-brainer to combine all those elements into a thrilling adventure with an exciting female lead. Q: Is Tribe for kids only?

Kaelyn: Not at all. There are some very adult themes in Tribe, but I wanted to write a story that anyone of any age can enjoy. The heroine is a sixteen-year-old girl who lives a life that, at times, seems sheltered to those of us in the modern world. But at the same time, the traditions of her people forces her to do things that would knock most of us flat. Q: What other works inspired you to write Tribe? Kaelyn: I really enjoy what The Hunger Games, Divergent, and The Maze Runner provided for those of us who enjoy the young adult market, so it seemed natural to write Tribe.

Q: What sets Tribe apart from the books you mentioned? Kaelyn: The main difference with Tribe is the underlying thread of mystery that runs through the entire series about what really happened to Kestrels world and why it happened and I'm not giving that secret away until the last book :) Q: Can readers get the whole series in one place? Kaelyn: Absolutely!

Tribe: The Complete Saga (parts 1-5) is the best way for those who want to fully immerse themselves in Kestrels world, and also to save a bit of money while they're at it! Q: Is there anything you want to say to your readers? Kaelyn: You bet! I love you guys! Thank you so much for reading!

Beginning around AD 1500, the Beothuk culture formed. This appeared to be the most recent cultural manifestation of peoples who first migrated from Labrador to present-day Newfoundland around AD 1. This practice led Europeans to refer to them as Red Indians.
