

Windows 8 Upgrade Guide (PCWorld Superguides Book 12)

Microsoft's new operating system may look like a radical departure from Windows 7, but it works, it makes sense, and it's the future. Numerous small improvements to the desktop user interface make many computing tasks easier to perform. In this book, we help you decide whether to upgrade to Windows 8, the best way to go about doing so, and the biggest changes between this version and previous versions of the operating system.
