

## Zens Chinese Heritage: The Masters and Their Teachings

Zens Chinese Heritage traces twenty-five generations of enlightened Buddhist teachers, supplementing their core teachings with history, biography, and poetry. The result is an intimate and profound human portrait of the enlightened Zen ancients, and an unprecedented look into the depths of the rich cultural heritage. In this new edition with even more valuable material, Ferguson surveys generations of Zen masters, moving chronologically through successive generations of ancestral teachers, supplementing their core teachings with history, biography, and starkly beautiful poetry. In addition to giving the reader the engaging sense of the family history of Zen, this uniquely valuable book paints a clear picture of the traditions evolution as a religious, literary, and historical force.
